What is an Executive Condominium (EC)?

An **Executive Condominium (EC)** is a hybrid between public and private housing in Singapore.

Built by private developers but subsidized by the government, ECs offer an **affordable alternative for middle-income families**.

After **10 years**, an **EC becomes fully privatized** and can be **sold to foreigners**.

ECs vs Private Condominiums

Feature	EC	Private
Price	Lower	Higher
Eligibility	Singaporeans/PR	Anyone
Grants	Yes	No
MOP	5 Years	None
Privatization	10 Years	Already Private

Are EC's a profitable option?

Over the years, EC owners have continued to reap handsome profits, benefiting from rising home prices. For EC projects completed in 2013, owners who sold after five years achieved a median gross profit of S\$142,000. In contrast, owners of EC projects completed in 2019 who sold at the five-year mark saw a remarkable median gross profit exceeding half a million dollars.

*The Business Times SG,
November 2024*

Is an EC for me?

Do you need:

- ? More living space?
 - ? A **higher** standard of living?
 - ? A home with **great appreciation** potential?
- 

DID YOU KNOW?

A common misconception is that ECs cannot make money.

ECs are priced lower than private condos, yet **appreciate in value similarly!**

What Happens Over Time with ECs?

After 5 Years

- Can be sold to Singaporeans and PR.
- No more income ceiling restrictions.

After 10 Years

- The EC is considered fully privatized
- It can be sold to foreigners

Sounds interesting? If you'd like a personalized consultation, you can reach out to me at 8916 6432!

**Still want to know more about ECs?
Read on!**

Who Can Buy an EC? 🌟
